LAB OBSERVATION

EXPERIMENT-3

3) Develop a flowchart in Figma depicting the operation of a Network Switching Subsystem in a mobile cellular system.

Answer)

Aim:

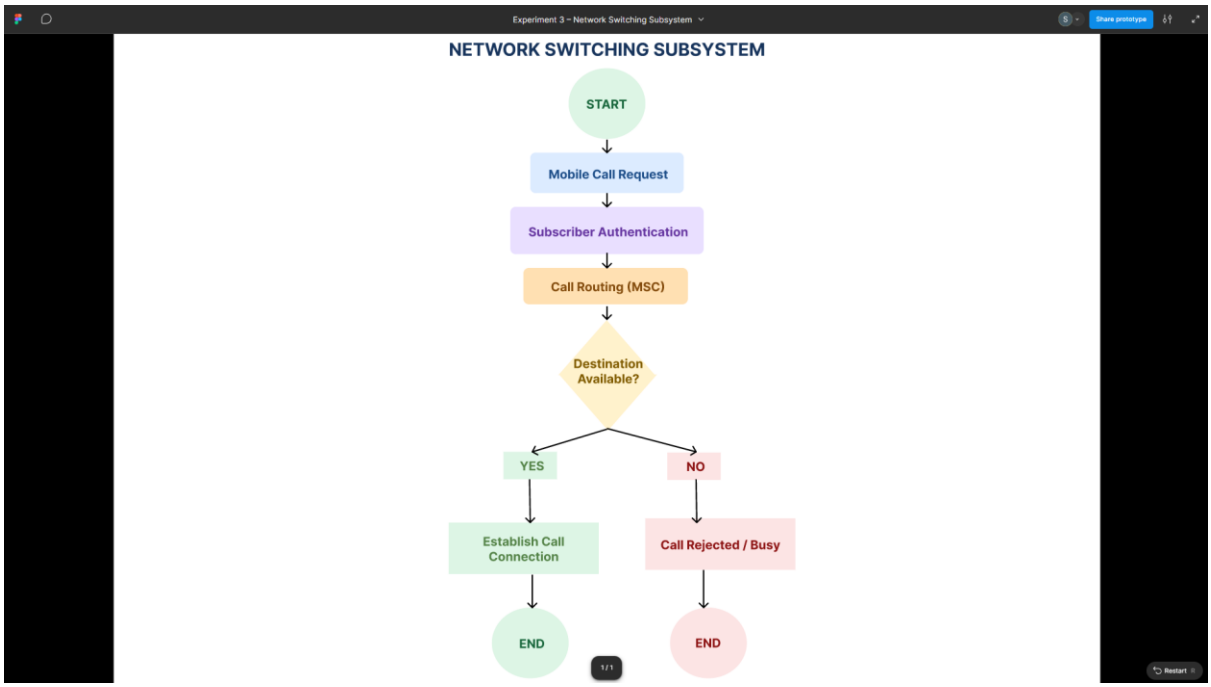

To draw a flowchart in Figma depicting the operation of a Network Switching Subsystem in a mobile cellular system.

Procedure / Algorithm:

1. Open Figma and create a new design file.
2. Create a suitable frame for the flowchart.
3. Add the title Network Switching Subsystem.
4. Draw the START symbol and the Mobile Call Request process.
5. Add the Subscriber Authentication and Call Routing (MSC) process boxes.
6. Create a decision diamond labelled Destination Available?.
7. Create separate YES and NO branches from the decision diamond.
8. Add the Establish Call Connection process for the YES branch.
9. Add the Call Rejected / Busy process for the NO branch.
10. Add END symbols to both branches.
11. Connect all the shapes using arrows and align them properly.
12. Review the flowchart and save the completed design.

Output:

Output 1: Network Switching Subsystem Flowchart

Result:

Hence, a flowchart depicting the operation of a Network Switching Subsystem in a mobile cellular system was created successfully using Figma.
